

ICMFS2024

Perugia, Italy

July 7 - 12, 2024

www.icmfs2024.it

The **25th International Colloquium on Magnetic Films and Surfaces** continues the tradition of previous Colloquia, that began in London, United Kingdom, in 1964. The goal is to exchange new results and ideas to advance the field of **magnetism at surfaces, interfaces, in micro- and nanostructures** and of **spin-dependent phenomena**.

ICMFS2024 is a satellite conference to the **22nd ICM** (International Conference on Magnetism), which will be held from June 30 to July 5, 2024, in Bologna, Italy, just 237 km north of Perugia (www.icm2024.org).

We invite you to attend the Colloquium and enjoy the unique atmosphere of historical Perugia!

Francesca Casoli and **Gianluca Gubbiotti** - Chairs of ICMFS2024

Venue

Perugia, the capital of the Umbria region, is a wonderful example of **Italian urban art** with great monuments from different historical periods. The city is located halfway between Rome and Florence, and is easily reached by car via the highways or by plane, train, and bus.

The **University of Perugia** was founded in 1308 and is one of the oldest and most prestigious universities in Italy. During the week of the Colloquium, Perugia will host the **Umbria Jazz Festival**, which is well worth seeing.
